About The Community Recovery Fund

Deal 2030 sets out our ambition to work collaboratively with Voluntary, Community and Social Enterprise (VCSE) organisations to develop a thriving and sustainable sector to best serve the residents of the borough.

We recognise how difficult the last few years have been for everyone in our communities, and this has brought many challenges for us all. Many of our VCSE organisations have been instrumental in delivering the crisis response to our vulnerable residents, whilst others have not been able to continue to operate as they had previously.

**The Deal
2030**

The Deal

A Time To Reflect, One Year On

The past year has been a sad and challenging time for the borough.

Yet the way we have responded to the pandemic, is one we should be very proud of and exemplifies The Deal. We have worked together as a borough; the NHS, the council, across the public sector, the voluntary sector, businesses and, of course, with our residents.

We now find ourselves with a great recovery challenge ahead.

A physical and emotional recovery for many as well as a broader social and economic recovery for our borough. We will approach this in the same spirit as the way we responded to the emergency and we will seize the opportunities that such a renewal presents.

We believe this is an important moment. We have many opportunities that we can embrace in an ambitious way - such as tackling inequality and putting greater urgency behind the climate agenda, to name just two of the massive issues we face.

Despite the challenges, we remain optimistic. Thanks to our partnership approach we are able to work together where this will bring new opportunities.

Thanks to prudent financial management we are in the position where the council and CCG are able to invest in our recovery.

In-keeping with our Deal principles we will enable and invest in businesses and communities to find the solutions to these issues.

The Deal has taught us the solutions to our problems are in our communities and by working together we can help realise them.

So, while we have challenges ahead, we have many reasons to be optimistic.

Through public, private and community sectors all working together we know we can achieve great things.

Cllr David Molyneux
Leader, Wigan Council
