

Home Chime from Imelda Shirley- Wigan Music Service

"Ahoy me hearties!" 🏴‍☠️

[View our Pirates Home Chime video on YouTube.](#)

The music and movement sessions are an opportunity for you to put practical ideas from the Chime resources in 'real time' with children in your setting. You can also share the link with your families to keep the fun going! The sessions are around 20 minutes long- you can access the whole clip, or you may decide to 'chunk' into smaller sessions. Imelda has done an excellent job of pitching the content to young children and the skills needed to make them confident and inquisitive learners and support their well-being without needing any specialist resources.

When you access the clip on YouTube, please 'Like' so that we can gauge numbers who are accessing the video and please ask your parents to do the same. The comments section has been disabled for GDPR reasons etc. so it would be great if you would feedback on our [Wigan Early Years Facebook Group](#) so we can share good practice.

Prior to using the video, you can familiarise yourself with some of the content by clicking on the radio programme link on the written handout to make it easier when engaging with the children. The written handouts are uploaded to our [Wigan Early Years Facebook Group](#).
