

REQUEST	14130 - Parking Fines issues	RESPONSE
	<p>So the wigan council website state</p> <p>“Free parking on wigan council owned car parks”</p> <p>There is clarification that this only applies to car parks and not on wigan council owned on road parking.</p> <p>What it does not state is “selected” wigan council owned car parks.</p> <p>I believe that the number of fines issued will Be a higher correlation to parking fines issued on that car park and other car parks that is not included in the offer of free parking. So i would like the number of weekend fines since the offer started (on wigan council owned car parks not included in the offer) and The same length of time prior to the offer starting and the frequency these are inspected.</p>	<p>The only pay and display car park that is not included in the free weekend offer is the Loire Drive car park.</p> <p>Enforcement of the car park started in 2017, when the free weekend parking offer had already been introduced in Wigan and Leigh Town Centres, therefore there is no data to provide prior to the offer starting.</p> <p>From 2017 to date, 651 PCN's have been issued on a Saturday and 610 PCN's on a Sunday.</p> <p>The car park is patrolled on a daily basis.</p>
