

I write to request information and records under the FOIA in relation to the council's contracts for cashless payment systems in schools, specifically:

- 1) A copy of the contract between CRB Cunninghams and the authority [please take into account point 20 of the [Local Government Transparency Code](#) in respect to commercial confidentiality]

The Council does not have a contract with CRB Cunninghams. Contracts made with this company are done directly by each school and they would hold any contract documentation.
- 2) A copy of any policy, guidance or similar held by the council on the use of facial recognition by school for lunch payment

The Council does not hold any such policy
- 3) A copy of any data protection impact assessment and/or equalities impact assessment held by the council on the use of facial recognition by school for lunch payment

The Council has not undertaken any such assessments as it is the schools that hold the contracts.
- 4) A copy of any other documents relating to the council's schools regarding on the use of facial recognition by school for lunch payment

The Council does not hold any documents in relation to facial recognition by schools for lunch payment
