

I am writing to make a request under the Freedom of Information Act regarding the spending of Community Infrastructure Levy and Section 106 funding in your area. I am asking for:

- 1) Details of each project funded with Community Infrastructure Levy in the last five years which provided childcare or other early years support to children. None

- 2) Details of each project funded with Section 106 funding in the last five years which provided childcare or other early years support to children. None

- 3) The total monetary value of Community Infrastructure Levy funding in the last five years awarded to projects which provided childcare or other early years support to children. None

- 4) The total monetary value of Section 106 funding in the last five years awarded to projects which provided childcare or other early years support to children. None

*In these questions, I am asking for details of projects specifically aimed at early years services or childcare, rather than funding for schools, and I am referring to the **last five full financial years (starting 2017/18)**.*
