

Request

Please forward details of the amount of waste sent to the Viridor Food Waste Recycling Facility, Arley Way, Atherton M46 9BP by Wigan Council or any waste contractors used by the Authority to process food/domestic waste.

Ideally the information should be - type of waste - amount in mass (or other measure) - charge from Viridor. These figures need to be given monthly or if not available monthly in the smallest time periods available. I'd like to go back over, at least, the last three years.

I wish to assess the authority's usage of the Viridor facility and if this has changed over time. Any information you can supply that would assist in this would be appreciated.

Response

Wigan Council do not send any food or domestic waste to Viridor Food Waste Recycling Facility.
