

Request

Please can I kindly ask that you compile all information year by year for the years 2017 – 2022 inclusive.

- (1) How many companies do you partner with to provide temporary accommodation service for vulnerable people such as Mental Health, Homeless, Asylum Seekers, Young Adults etc.
- (2) How many people have you provided temporary accommodation for in this period split by category e.g. Homeless, Mental Health etc.
- (3) What is your minimum and maximum bedroom provision in any one property? Please answer this based on criteria for this year only.
- (4a) Do you have an approved accommodation provider list and if so, when is that list due for renewal?
- (4b) What information is required to join that list and what are the requirements for a property or a partner to become approved?

Response

- 1) 6
- 2) 2019-2020 = 373
2020-2021 = 821
2021-2022 = 890

(We are unable to provide this data from 2017-2019, as we no longer hold this data due to a change in systems in 2019, the above data reflects the number of households placed into temporary accommodation under Homeless duties. Our systems does not specifically capture data in terms of individuals who are vulnerable as a result of Mental health issues, we would have to manually audit all case notes to gain this information which would take beyond the allotted time frame for the response.)

- 3) Minimum bedroom provision is one bed and maximum number of bedrooms is 4 bed.
- 4a) No
- 4b) NA
