

I'm researching what happens to children deprived of their liberty under court orders sought by councils. Please can you help with the following? Please use the attached spreadsheet.

- 1) How many children have been subject to deprivation of liberty orders (following council applications) in 2021 and so far in 2022 (Jan to Sep)? 18
- 2) How many of these children (see Q1) have been placed in unregulated placements (that is placements not regulated by Ofsted)? 6
- 3) How many of these children (see Q1) were aged under-16? 9
- 4) How many of these children (see Q1) were given out-of-area placements? 17
- 5) Please list all the different types of accommodation/ placement recorded in your data for these children (see Q1), which might include hostels, flats, B&Bs, shared houses, family homes, caravans, canal boats etc? Please include the number of placements for each type of accommodation/ placement recorded in your data if possible - otherwise just list the different types.
  - OFSTED registered childrens homes
  - Unregulated children's homes awaiting OFSTED registration with court oversight
  - CQC registered care home
