We have not disclosed the individual names of the members. Section 38 of FOIA provides an exemption from disclosing information if it would endanger any individual (including the applicant, the supplier of the information or anyone else). The reason we think this exemption applies is that the information is disclosed to the world at large under FOI and members could be subject to threats and/or intimidation if their names were put into the public domain. The public interest in safety of individuals outweighs the public interest in the transparency of information
