

I recently submitted an FOI on school supplementary grant funding - I have some follow up Qs if possible.

- 1) Did the LA passport the SSG funds to special schools as well as mainstream schools?
 - 1) Yes – a proportion of the SSG was provided to Special Schools.
- 2) If it was passed on, what methodology was used to calculate the amount of money passported to special schools? And the total amount passed on?
 - 2) We increased top up funding for special schools by 3%. The total extra funding was £0.330m (including our Alternative Provision provider).
- 3) If the LA did not pass the SSG on to special schools, what did they do with the money retained?
 - 3) Remaining SSG is being used to offset increases in independent school fees, post 16 provision top up funding and increases in provision and increased support service costs.
