Response

1) Do you have any software systems/databases that are running solely for the purpose of retaining legacy data? i.e. they are not operational systems any longer but are just data stores retained for the purposes of data retention.

Yes – these are legacy databases that continue to be retired.

2) Where the answer is yes, what is this system called and what are the licence and support costs from the vendor.

FMIS   Finance
EMA, Gateway, SENTINEL, Terms - Education
HousingSafety, LAPDDB,
RentWeb - Rents, ,
Safety system - Health & Safety
SWIFT, Mesals - Adults

All internal no licence costs
