12. We do not hold this information within Mosaic in a reportable format. CHC screening tools are completed on NHS CHC paperwork and added to records as an attachment so all records would need to be checked for accurate reporting which would take us over the allotted time for FOI requests for around 5000 residents within ASC. Estimate 5000 records at 5 minutes each = 416 hours. The information is however held by Wigan ICB CHC Team who could be contacted to ask if they could provide - continuingcare (NHS GREATER MANCHESTER ICB - 02H) gmicb-wb.continuingcare@nhs.net
13. Our Model of Working is to complete Asset Based Conversations around a 3 conversations model - Act Now, Building My Best Life, Creating My Future

15. This is not something we have ever had to consider but if an assessment was received on behalf of a resident, completed by a registered SW, we would be required to check the validity of registration and fullness and accuracy of completion in line with our own recording policy. If however we were in agreement with the assessment we would not require a re-assessment by a Wigan Council SW.
