

Request:

We would like to understand the progress in offering Individual Service Funds in your area. An Individual Service Fund (ISF) is a personal budget that is held by an organisation (or micro provider) which has been nominated by or on behalf of the person and can be used to meet some or all of the outcomes that have been identified as part of a Care Act assessment as directed by the person (or their circle of support).

How would you describe ISF progress in your area?

1. ISFs are available.
2. ISFs being trialled/partial offer available.
3. ISFs not available.

Response:

ISFs are available but currently we have only one ISF in place.
