

Request:

- 1) What is your strategy for connectivity services regarding the schools in your jurisdiction? (i.e. broadband, internet connectivity).
- 2) Do you provide services directly?
- 3) Are they provided by a partner and if so who?
- 4) Are schools left to decide the strategy for themselves?

Response:

We are unable to provide this information as it is managed by schools themselves. You will need to contact the schools individually to obtain this information.
