

## **Request**

Please could you send us a copy of the council's Minerals First List? The First List is a list of mineral sites prepared by local authorities following the introduction of the Environment Act 1995. The First List usually separates the mineral permissions into Active Phase I, Phase II and Dormant Sites.

## **Response**

The details of minerals sites in Wigan Borough can be found in the latest annual monitoring report for the NW, which can be accessed at:
