

## Request

Under the Freedom of Information Act 2000, I would like to request the information regarding supported living services for adults with a primary support need of learning disabilities (LD,) mental health (MH) and Autism Spectrum Disorders (ASD).

Supported living may also be called Supported accommodation or Supported housing and is a housing scheme where housing, support and care services are provided to help people with disabilities live as independently as possible in the community.

Long term care is provided to clients on an ongoing basis and varies from high intensity provision such as nursing care, to lower intensity support in the community such as the provision of direct payments to arrange regular home care visits.

Please note, that by MH, we mean 'Mental Health Support' and **not** 'Support with Memory and Cognition' or 'Substance Misuse Support'.

Please provide answers on the attached and accompanying spreadsheet, and wherever possible, please provide separate out for each category of LD, MH, and ASD.

## Response

Please see attached [Excel document](#)
