

Request

I would like information about your council's homes and MEES enforcements in relation to climate action for the Council Climate Action Scorecards. This information may be held by a housing department or similar. In particular, please supply me with information relating to the following questions:

- a) What is the energy efficiency of the council's homes (managed or owned by the council)? Please provide either a distribution table with the number of buildings for each EPC rating or the percentage of the council's homes that have received an EPC rating of C or above.
- b) What is the number of investigations, enforcement notices and enforcement actions that the council did, related to MEES (Minimum Energy Efficiency Standards) in the 2021/22 financial year.

Where data is available separately for each statistic please provide separately. If only some information is available, please give me that information.

I would prefer to receive information in a machine-readable format, such as CSV files for data, where possible.

Response

- a) Please find attached distribution table of EPC ratings across the housing stock, which has been produced from a blend of valid EPC lodgements and subsequent cloning to similar property types.
- b) We have engaged with 12,539 PRS property owners and 142 landlords improved their EPC to a rating of E or above. 78 Properties from that period to receive enforcement notices
