

In accordance with the terms of the FOI Act 2000, I write with the below requests for information:

Highway Bond Provision

- | | |
|---|---|
| 1. What is the total bond value for S278 and S38 agreements for a) 2019-20, b) 2020-21 and c) 2021-22? | This data isn't held. |
| 2. What is the total number of bonds completed in a) 2019-20, b) 2020-21 and c) 2021-22? | This data isn't held. |
| 3. What items of adoptable highway infrastructure currently attract commuted sums, and what are the individual costs? | Bridges, culverts, cycle stands, highway retaining structures, non-standard paving, retaining walls and trees. Commuted sums also apply for any elements of over engineering within the adopted or adoptable area. Any other commuted sums are assessed on a site to site basis and the same applies to individual costs. |
| 4. What is your inspection fee or percentage applicable relevant to the bond provision for S278 and S38 agreements? | Minimum £3,950.00 or 6% of the estimated construction cost (bond amount). |

S278 Timescales

- | | |
|---|-----------------------|
| 5. What was the average time taken from technical submission to technical approval of a S278 agreement in a) 2019-20, b) 2020-21 and c) 2021-22? | This data isn't held. |
| 6. What was the average time taken from technical approval to the completion of a Section 278 legal engrossment in a) 2019-20, b) 2020-21 and c) 2021-22? | This data isn't held. |
| 7. What was the average time to grant a Streetworks Permit, post execution of legal engrossment in a) 2019-20, b) 2020-21 and c) 2021-22? | This data isn't held. |

S38 Timescales

- | | |
|---|-----------------------|
| 8. What was the average time taken from technical submission to a response to the submission of a S38 agreement in a) 2019-20, b) 2020-21 and c) 2021-22? | This data isn't held. |
| 9. What was the average total time taken from technical submission to formal adoption of a S38 agreement in a) 2019-20, b) 2020-21 and c) 2021-22? | This data isn't held. |
