

I submitted a planning application in 2021 ref A/21/90959/HHRET. During that process a number of objections were submitted. I have been provided with the written address already ON those submissions however I want to know.

Of the submissions made, as opposed to the address recorded ON the objection could you provide me with:

- 1) The addresses that you have associated with the actual online objection submissions as opposed to the address stated IN the submission. For example an objection may state that the objection was from address A. However in reality the email address used, or other information held by yourselves, indicates that the true objection in fact came from address B.

This information is exempt under Section 40(2) of FOIA, as disclosure of third-party personal data, including names/addresses could lead to individual's being identifiable.

*Additional information provided on formpost:*

*Planning application for 23 Ward Street. Address objections provided. 25 Ward Street 1 Forbes Close 3 Forbes Close 5 Forbes Close*
