

## Request

1. How many applications for DHPs did the council receive in 2022/23?
2. How many of the applications in question 1 did the council approve? (i.e. the council decided to award DHP in response to the application, either in full or in part)
3. How many of the applications in question 1 did the council refuse? (i.e. the council decided not to award any DHP in response to the application)
4. Please provide any data the council holds on reasons for DHPs being refused in 2022/23
5. What was the average amount of DHP awarded in response to successful DHP applications in 2022/23? This is the amount awarded for each application, not each household (i.e. three successive awards to one household count as three separate awards). Successful applications are those that were awarded any money

I am further requesting the following information regarding homelessness support:

6. The number of households who were assessed as being owed the prevention duty each month so far in 2023.
7. The monthly figures for question 6 where the reason for the threat of loss of home was the end of an Assured Shorthold Tenancy (AST) (where the AST ended for any reason, including those specified in questions 8 and 9)
8. The monthly figures for question 6 where the reason for the threat of loss of home was the end of an AST due to rent arrears.
9. The monthly figures for question 6 where the reason for the threat of loss of home was the end of an AST due to the landlord wishing to sell or re-let the property
10. The number of households who were assessed as being owed the relief duty as the outcome of their initial assessment (i.e. not at the end of their prevention duty) each month so far in 2023.
11. The monthly figures for question 10 where the reason for the loss of home was the end of an Assured Shorthold Tenancy (AST) (where the AST ended for any reason, including those specified in questions 12 and 13).
12. The monthly figures for question 10 where the reason for the loss of home was the end of an AST due to rent arrears.
13. The monthly figures for question 10 where the reason for the loss of home was the end of an AST due to the landlord wishing to sell or re-let the property
14. The number of households who were assessed as being owed the main housing duty each month so far in 2023
15. The number of households who were owed the relief duty at the end of their prevention duty period, each month so far in 2023.

## Response

Please see attached spreadsheet.

Please note with regard to Q4 - We don't hold figures for refusal, the main reasons would be excess income exceeds threshold, DHP combined with UC exceeds, housing costs defined on journal, moved to a property with higher rent than previous property, has already had 3 awards within a financial year with no change of circumstance.
