

Request

I am writing regarding the data set behind the Local Plan Map on your website –

<https://wigan.maps.arcgis.com/apps/webappviewer/index.html?id=ad4dab4d6a9e4f1cbb4744a5794fcb69>.

Would it be possible for you to send me the GIS shapefiles behind the map tool please? (Either as a Zip or as separate files).

Response

As requested, please find attached a compressed zip folder of all the GIS shapefiles that are behind the Local Plan.

They are provided for this FoI instruction only and not for any other purposes unless agreed by the council.
