

I understand that in the Wigan area that is a locally commissioned pharmacy service, the details as set out in the service specification are as follows: - Service Specification Number: LCPS5 - Service: Locally Commissioned Pharmacy Service – Monitored Dosage System (MDS) Service - Period: 24 months - Date of Review: 31 March 2024. I would like to know the following: -

- 1) What the spend on this service has been to date
- 2) How many patients have been funded through this service to date
- 3) If possible, a breakdown of funding by pharmacy (or perhaps just postcode area)

This information is not held by Wigan Council. The service is commissioned by the ICS who can be contacted on:
