

Request

Please may I request information regarding the woodland next to Spey Close, Standish, Wigan. I would like all available information about tree maintenance plans and tree replacement schemes. Could I also have information pertaining to land value and if possible details of future plans for this land?

Response

The woodland is included in the Council's annual inspection regime and as such is visited by a Tree Inspector once a year. Any works identified by the Inspector are then programme in for completion using a risk-based priority system. There are no specific plans to fell or replace any trees in this woodland. Further information can be found on the Councils Tree Management Principles - [Trees and woodlands \(wigan.gov.uk\)](http://wigan.gov.uk)

We don't hold any information on the value of this land, it is held as open space with no future plans other than to provide amenity/open space.
