

**Request**

I would like to know what garages are available to rent in my area (WN6 7??). I have submitted two garage applications in the last 12 months but to no avail. I have been in contact with several people at the council recently and have been given different reasons as to why I cannot get a garage.

**Response**

We have 26 garages empty in this location at the moment pending a review. They are not however all ready for letting, this is due to a number of reasons.
