

<b>Request</b>	<b>Response</b>
1) How many professional Reinforced Autoclaved Aerated Concrete (RAAC) surveys have been carried out on council buildings (including commercial, non-commercial, community and residential) that were built or extended between 1950 and 1990? Please provide a numerical figure.	133
2) How many surveys are still outstanding? Please answer using a numerical figure. If you do not know how many need to be surveyed, please respond 'unsure'.	0
3) Please name any council run or owned buildings (including commercial, non-commercial, community and residential) where RAAC has been identified in the last two years.	None
4) Please detail the status of the buildings with RAAC. For example; have remedial works been carried out to replace the RAAC, is the structure safe or has the building been deemed uninhabitable and needs to be demolished?	N/A
5) What is the estimated cost to repair or eradicate RAAC from your estate and do you have the budget to achieve this?	N/A
