

Request:

Please could you provide the school supply spend for the academic year 2022/2023 broken down by school and the agency used by each school in relation of temporary supply teachers and support staff.

Response:

The individual detail of this expenditure is held within the individual schools. For the maintained schools within the borough the amount spent on supply costs is sent through to the Local Authority each month in line with other categories of spend. However, included in this monthly total for supply costs is costs relating to training and professional fees. Specific spend on temporary supply teachers and support staff cannot be separately identified from the monthly figures submitted. The information submitted also does not contain detail on the individual agencies that the actual spend was incurred with.
