

Request

In March 2022, the Department for Education announced the allocation of High Needs Provision Capital Allocation (HNPCA) grants for the 2022-23 and 2023-24 financial years.

As part of the assurance arrangements for this grant, the Department for Education requested that each local authority complete and return a short grant assurance data return at an appropriate interval, to provide details on the projects they intend to fund using HNPCA.

Please provide me with copies of the completed assurance data return template files that your council sent to the Department for Education under the conditions of the HNPCA grant. If possible, please provide a copy of the completed Excel template file (.xlsx) rather than a pdf file.
