

Request

I would like to know how many serious injuries and fatalities have occurred along the A572 in Astley Greater Manchester. The length of road I am interested in is a mile each way from the point at where the fixed speed camera is (adjacent to Boomers and Swingers Golf) in the period 3 years prior to the camera being installed to the end of August 2023.

Response

Transport for Greater Manchester hold the injury accident data which can be accessed by the public at link below;

[GM road accidents \(gmtu.gov.uk\)](https://www.gmtu.gov.uk)
