

Request

This year's FOI will include Habilitation services, the specialist vision impairment curriculum framework as well as education services for children and young people with VI.

The last RNIB FOI was carried out in 2022 and we now need to obtain up to date information to monitor any changes, so we can continue our work to protect education services provided to children and young people with VI. We hope that you will also find the information that we collect valuable and useful.

We would greatly appreciate it if you could prioritise completing the questionnaire. It is important that we receive a completed questionnaire from all local authorities to understand the situation in services across England.
