	<p>I would like to know what percentage of Local Authorities have an Electric Vehicle Transition Strategy in place and how they manage their fleet of vehicles.</p> <ol style="list-style-type: none"> 1. Do you have an Electric Vehicle transition strategy in place? 2. How many vehicles (pool cars, taxis, buses, trucks, etc) do you have in your fleet and what percentage is electric/hybrid? 3. How many garages do you operate for the maintenance of your fleet, (inc taxi compliance and MOTs). Does this cover both diesel fuelled, pure electric and hybrid vehicles? 4. Can I please have the contact details (email and phone number) for your Fleet Manager. 	<ol style="list-style-type: none"> 1. Wigan Council currently do not have a confirmed alternative fuel (AF) transition strategy at present. We are currently in the early stages of reviewing all available/suitable AF options and will be looking at implementing once a plan has been agreed (at the moment no timescale can be provided for this). 2. There are 310 vehicles in our fleet, 8 of which are electric/hybrid, equating to 2.6% of the overall fleet. 3. Wigan operate one workshop which covers diesel, electric and hybrid vehicles. 4. Julie Middlehurst, Assistant Director – Infrastructure and Regulatory Services, J.Middlehurst@wigan.gov.uk
