	<ol style="list-style-type: none"><li data-bbox="147 449 878 520">1. How many electric charge points does this council currently own and operate?<li data-bbox="147 1066 911 1178">2. Are all the charge points compliant with the 2023 Public Charge Point Regulations? If not all, then how many?<li data-bbox="147 1339 927 1451">3. What steps have been taken by the council to ensure compliance with the 2023 Public Charge Point Regulations?<li data-bbox="147 1724 902 1835">4. Has this council experienced any challenges when working to comply with the 2023 Public Charge Point Regulations?	<ol style="list-style-type: none"><li data-bbox="951 449 1495 716">1. There are currently 189 Electric Vehicle Chargers in the Wigan Borough; 44 Nr – Slow 42 Nr – Fast 73 Nr – Rapid 30 Nr – Ultra Rapid These charge points are located on Wigan Council land, however they are owned and operated by a variety of providers. The council itself doesn't own or operate any charge points directly.<li data-bbox="951 1066 1536 1220">2. Compliance with the 2023 Public Charge Point regulations is the responsibility of the charge point operator.<li data-bbox="951 1339 1568 1682">3. Compliance with the 2023 Public Charge Point regulations is the responsibility of the charge point operator. As the council doesn't operate charge points itself, it would be the responsibility of TfGM and the charge point operators to ensure compliance with these regulations.<li data-bbox="951 1724 1268 1759">4. None at present.
