

REQUEST	16074	RESPONSE
	<p>I would request who gave Bethell (on behalf of Himor / Wainestates/ Wainhomes ) the authority to spend the last 20 days severely disrupting rate paying residents lives. The project is no where near complete and will result in a recently resurfaced Rectory Lane going back to where it was before, presumably to be fixed in future with authority funds. I'm sure you will not give an answer , but please be aware this is a serious physical and PR issue that will be left with the MBC</p>	<p>The works on Rectory Lane, Standish were undertaken by Bethell's on behalf of Wain Homes.</p> <p>Wigan Council permitted these works in line with the requirements of the New Roads and Streetworks Act. This Act also places the responsibility for re-instating the highway, with the works promotor, following completion of their works.</p> <p>The Council will maintain this highway in line with national standards and Wigan Council policies following completion of these works.</p>
