

- 1) I would like to know how much money in contracts from the council has been given to the following companies since July 2017: Kingspan and Rydon. £ 804.26
  
- 2) Following the Grenfell fire how many council tower blocks (over 18 meters high) were identified as having flammable cladding (likely made from aluminium composite material). How many of these high rises still have flammable cladding? None
  
- 3) How many other council-owned buildings, under 18m, currently have flammable cladding? I would like this broken down into building type - school, hospital etc We are currently not aware of any buildings below 18M that have flammable cladding.
