

Request

I want to know if the Quality Assurance Assessment of One Vision's deliverance of unregulated education set for January 2024 by Wigan SEND - this plan of action was set following an initial Quality Assurance Assessment was implemented on the 27th September 2023.

If this assessment has been carried out I request a copy of the whole report detailing its findings and recommendations. If this assessment was not carried out I request an explanation why it did not take place

Response

The quality assurance assessment scheduled for January 2024 did not take place as a result of the provider informing Wigan Council of their decision to cease the education offer once alternative education arrangements have been established for the current young people placed in the setting.

There has, however, been regular discussions between the Council's senior leaders and the provider.
