

REQUEST	16170	RESPONSE
	<p>Please can you tell me the cost of the installation and the yearly running cost of the cctv in the centre of Standish?</p>	<p>The CCTV referred to are rapid deployment cameras which are deployed based on need across the borough for specific issues and are reviewed on a 3 month basis and as such the purchase price of the units are not included in this response.</p> <p>There are 2 units installed in the current configuration.</p> <p>The cost of installation was £900.</p> <p>As the deployment of the cameras are reviewed on a 3 month basis, I have included the running cost of the current system for the initial 3 months at £300.</p> <p>If the current configuration remains in place the running cost will be £ 1,200.</p>
