

Request

1. How many occupied council-owned residential properties are currently affected by internal mould?
2. How many occupied council-owned residential properties are currently deemed unsafe?
3. How many occupied council-owned residential properties are currently waiting for repairs?
4. How many occupied council-owned residential properties are currently waiting for fire safety mitigations?

Response

Over the period 31/01/23 – 31/01/24 there have been 3159 reports of mould to investigate.

Zero – we would not leave any properties occupied where it is deemed unsafe.

There are currently 5150 ongoing repairs.

None we do not mitigate. We remediate.
