

REQUEST	16019	RESPONSE
	<p>1. Do you currently place any individuals with a learning disability in Shared Lives placements? If not, do you have any plans to make such placements? Please provide any estimates of financial savings that you make, or anticipate making, as a result of any such placements.</p> <p>2. Please provide any estimates for financial savings, or anticipated future financial savings, through the integration of services with the NHS? Do you use, or plan to use, HCRG Care Group to commission services, including joint commissioning with the NHS?</p> <p>Do you use any other organisations for joint commissioning with the NHS, or have any plans to do so? Please provide any estimates for financial savings, or anticipated future financial savings, through any such joint commissioning with the NHS.</p> <p>3. Do you currently commission the British Red Cross to provide home care services, or have any plans to do so? If so, please provide any estimates of financial savings that you make, or anticipate making. Do you currently commission other organisations to provide home care services? If so, please provide any estimates of financial savings that you make, or anticipate making.</p> <p>4. How many social care users did you provide with care technology, such as "Telecare" or "personalised reminders", in their homes for the financial year 2022/23? Please provide any estimates of financial savings that resulted. Please advise if you have provided social care service users with Argenti telecare, or plan to do so. If so, please provide any estimates of financial savings that have resulted or are anticipated.</p> <p>Please advise if you have provided social care service users with GenieConnect "personalised reminders" from Service Robotics, or have any plans to do so? If</p>	<p>Yes, we do currently place individuals with a learning disability within Shared Lives Placements. We do not record savings for Shared Lives Placements but do anticipate growth in this market area, to contain demand growth in other market areas.</p> <p>We are not targeting any financial savings from integration of services with the NHS and do not plan to use, HCRG Care Group to commission services.</p> <p>We do not use any other organisations for joint commissioning and are not targeting any financial savings from joint commissioning with the NHS.</p> <p>No, we do not commission the British Red cross for home care services. We have several providers on our ethical home care framework. The efficiency target across our home care market for 23/24 is £180k.</p> <p>2840 No customers are with Argenti.</p> <p>We use GenieConnect in the demonstrator site, but no customers have them as part of their package.</p>

so, please provide any estimates of financial savings that have resulted or are anticipated.

5. Do you make available, or plan to make available, AI powered ceiling lamps to social care service users? If so, please provide any estimates of financial savings that have resulted or are anticipated.

Do you have other plans to make use of robotics/AI/new technology to reduce the risk of falls and otherwise improve the standard of care? If so, please specify and provide any estimates of financial savings that have resulted or are anticipated.

6. Have you introduced, or do you plan to introduce, digitisation of social care service users records? If so, please provide any estimates of financial savings that have resulted or are anticipated.

We use other connected devices such as smart plugs linked with Google and Amazon products. We have no financial efficiencies attached to these devices.

We look at all technology available to support customers. We have no financial efficiencies attached to these devices.

We are planning to further implement this in an element of our adult social care services. The cost and savings from this work are yet to be quantified.
