| 24/08/2017 | Works at Heinz & pungent smell from a food processing plant |
| 26/11/2019 | Comment: Hi, i live in the area of kitt green and have noticed for a good 6 months, the increasing malodour of rotting food in the vicinity near to H J Heinz and the industrial estate of martland mill. This stench is permeating into my home, leaving a smell of rotting food waste in my porch, stairs and landing. I am purchasing products to help combat the odour, but this has little effect especially when the malodour is at its worst. I would be grateful if you could investigate and inform me of your findings. I have lived in my home for 25 years and have never had this problem before now. Many thanks |
| 28/11/2019 | Comment: Recently the bad smells coming from the Heinz factory have gotten more frequent. It only used to happen once a month or so, but now it seems to be daily. I would like to know what can be done about the frequency of these bad smells. Thanks |
