

## Request

I would like to know how many electric vehicle charge points have been installed by the authority from 1 January 2019 to 31 December 2023, broken down by year.

I would also like to know how many of these charge point installations resulted in access issues which required further remediation, e.g. needed to be moved to a different location, or replaced entirely, due to incorrect installation and/ or faulty equipment. I would also like to know how much each of these moves or replacements cost the council.

## Response

The council is aware of the following charging points. There are two points at each location:

Wigan	Loire Drive	20/03/2023
Wigan	Leigh Town Hall	03/04/2023
Wigan	Chatsworth Street	20/03/2023

The following charging points are installed in Council Housing New Builds:

Year	No. of installs	No. of remediations	Cost of remediations
2021	17	1	0 within defects period
2022	36	0	0
2023	32	0	0

No rectification or remediation after install has been required.
