

## **Request**

### **Brunswick Sport & Social Club**

The above organisation I understand has received £4000 through the Brighter borough fund.

Recently they fired off some youngsters for working with an independent on one of their projects.

As far as I'm aware this type of funding isn't allowed as its deemed to be discrimination.

Can you tell me if they are still receiving funding and the justification for doing so.

## **Response**

Brunswick Club received £1,877.90 in this municipal year from Brighter Borough for: "Annual end of season work to the green before winter. The green is spiked, fed, seeded ready for the following season. With members and visitors approx 100 plus players each week will use the green plus charity and community events taking place."

A previous application in the last municipal year was for £1,495.00 for the clubhouse and cooker to benefit 200+ in the community.

A municipal year runs from the day after the local election to the next year i.e., May to May

Both applications were approved within the Brighter Borough Guidelines as a community benefit.
