Energy Management System Contract(s) - Contract(s) relating to the organisation's energy management system. An energy management system (EMS) is a system of computer-aided tools used by operators of electric utility grids to monitor, control, and optimise the performance of the generation or transmission system.

If the organisation does not have an Energy Management System, please confirm when this will be implemented. It would be great if you mention the tentative date/month.

<u>Energy Management System</u> Provider name	SystemsLink 2000 Ltd
1. Annual Spend	1. Annual Spend £12306
2. Contract Duration (Including any extensions)	2. Contract duration 2 years
3. Contract Expiry Date	3. Expires 09/2026
4. Contract start date	4. Starts 09/2024
5. Contract Review Date	5. 6 months prior to contract end
