

Wigan[♥]
Council

I would like to request a FOI disclosure for the details/locations of all 'Bus Lane' cameras installed around Wigan. Please can you:

1. Identify all camera locations.
2. Identify the make, model and serial of each camera.
3. Identify if each camera is forward-facing or rear-facing.
4. The date each camera was installed.
5. Provide all future camera installations.

6. Provide enforcement procedures for the cameras.
7. Provide total earnings made from fines.

We do not hold this information, installation and maintenance of roadside safety speed camera locations in Greater Manchester are currently funded by Safer Roads Greater Manchester Partnership on behalf of the Local Authorities

Wigan Council does not operate bus lane enforcement currently.
