

Can I please request information on flooding incidents at council-run sports facilities. The flooding incidents should be in relation to weather-related incidents only (i.e. not as a result of plumbing incidents).

For the years 2013 to present I would like the following information for each flooding incident:

1. Date of flooding incident
2. Name of sports facility flooded
3. Address of sports facility
4. Description of area flooded - football pitch, rugby field, gym, etc.
5. Cost of damage/repairs (£)
6. Information if the facility had to be closed and if so, for how long

No Flooding
