

**REQUEST 17734**

1. Does your local authority have any special needs schools that operate across more than one site? If so, please provide me with a list of names for these schools and confirm how many sites they each have?
2. If so, does your local authority provide any form of split site funding to special schools with more than one site?

**RESPONSE**

1. Aspire Sixth Form College supports a combination of pupils from Landgate School and Oakfield High School and College. The site currently operates over Leigh Sports Village and Oakfield High School.
2. Funding is allocated per pupil through the High Needs Funding Block depending on the pathway taken (i.e. further education learning offer or Supported Internship Pathway).
