

## REQUEST 17831

This request is for councils that operate (or hold data for) a social housing register, regardless of whether or not they own any council housing. My questions are:

1. The average time the households in the highest priority band on the council's social housing register have been in that specific priority band for (thus excluding any time they may have previously spent in other bands)
2. The average time the households in the second-highest priority band on the council's social housing register have been in that specific priority band for (thus excluding any time they may have previously spent in other bands)
3. Among households in the highest priority band who were rehoused in calendar year 2024 (and thus left the social housing register), the average time they had been in the highest priority band for at the time they were rehoused
4. Among households in the second-highest priority band who were rehoused in calendar year 2024 (and thus left the social housing register), the average time they had been in the second-highest priority band for at the time they were rehoused

If the information for questions 3 and 4 is not available by calendar year, please provide it for the most recent financial year for which the information is held (and state the financial year being used).

## RESPONSE

We are unable to provide this information as we do not record the length of time an application has been in a specific band or when their band may have changed.

We are unable to provide this information as we do not record the length of time an application has been in a specific band or when their band may have changed.

We are unable to provide this information as we do not record the length of time an application has been in a specific band. Only a date of registration is recorded against an application.
