REQUEST 17857

I would like to make a request for documents in an excel or PDF format detailing pothole repairs made in the last three years.

If this timeframe is not available then please provide documents detailing this information as far back as possible.

I am specifically looking for reports of potholes that have been fixed then reappeared. If it is available then a document detailing this information can be provided instead.

RESPONSE

We don't hold this information so we have provided the list of all repairs in the last 3 years.

Please see accompanying Excel document.
