

REQUEST 17971

I am respectfully writing to request your assistance. Specifically, I would like to ask whether Wigan Council could kindly provide access to information regarding residential buildings within your borough that have undergone energy efficiency retrofit interventions within the past five years.

Ideally, I am seeking the following information:

1. Project name and general location (without exact address if confidentiality applies),
2. Type of retrofit measures undertaken (e.g., insulation, glazing upgrades, renewable energy installations),
3. Year(s) of completion,
4. (If possible) any public contact or organisation involved in the retrofit (e.g., housing associations, managing contractors).

RESPONSE

Wigan Council has undertaken retrofit measures as part of both the Green Homes Grant and currently the Social Housing Decarbonisation Fund (SHDF).

Contractors completing works under the Green Homes Grant:

Rothwells

Daikin.

Contractors currently completing works under the SHDF:

Connollys Ltd

BAAS Construction Ltd.

Numbers of properties benefitting from this work have been completed in the following geographical areas:
