

REQUEST 18019

In 2023, The Hepatitis C Trust conducted a mapping exercise of pharmacy-based needle and syringe programmes (NSP) across England. The aim of this exercise was to establish the geography of NSP provision, as well as the type of equipment being provided. We plan to repeat this exercise in 2025 and, as a starting point, are asking local authority public health teams - who are responsible for the commissioning of substance misuse services including NSP - to provide information on NSP participating pharmacies.

I am requesting the following information:

- A named list (with each individual site address) of the pharmacies commissioned to provide needle and syringe programmes in your local authority.

RESPONSE

NSP
