

**REQUEST 18108**

1. I wanted to kindly ask if there is a list of projects funded under ORCS (On-street residential charging scheme) and charger locations in your region, and if so, if it was possible to access that information.
2. Additionally, is there any available information on project applications or the process of choosing charger locations?

**RESPONSE**

1. Wigan Council has not installed any charger locations in the borough using ORCS funding.
2. Information on project applications or the process of choosing charger locations is set by the relevant funding body.
