Council

Request

I am trying to obtain a list of the private providers the council uses to provide supported living accommodation for young people and vulnerable adults in the Borough. I am specifically interested in providers who use private landlords to house council service users.

I cannot see any up to date information on the council's website or in the contacts spreadsheet, so would like to submit a freedom of information request to obtain this data.

Response

This is a list of our supported living providers commissioned by the Council.

Care Choice NW
Creative Support
Possabilities CIC
Cherish UK
Wigan Cares
Community Integrated Care
Mediline Supported Living
Caretech Community Services
Imagine Act & Succeed

However most of these providers would work with a registered social landlord rather than private landlords due to the exempt nature of the property and the high level of support they provide.

Supported accommodation provided within the private sector is not usually commissioned by the Council and therefore we do not hold information on all of these providers. Commissioned providers are usually Registered social landlords or aligned to a social landlord.
